
Quality you can Trust

We are ISO 9001: 2008 certified and many of our products are UL® recognized. CircaMax offers custom cable manufacturing services to Original Equipment Manufacturers from prototype to full production. Strict standards are employed to ensure process and component excellence.

History of Excellence

CircaMax has over 30 years of experience in designing and manufacturing custom wired connectivity products that are highly reliable and exceed expectations. At our manufacturing facilities we can build nearly every type of cable assembly as well as custom connectors, adaptors, RF cables , surge protectors, NEMA enclosures and more.

Personalized Service

Knowledgeable sales support and technical engineering experts will work along with you to design and develop your unique custom cable. Think of us as an extension of your business. We can provide a prototype of the cable for your approval, before production continues, to ensure proof of concept before commitment.

Personalized Service

CircaMax understands that you don't always need high volumes. We offer low minimum order quantities to provide you with a solution to meet your needs.
